## Summary

I'm an entirely career-oriented person willing to work my hardest to achieve great heights.

- I'm into art and design and am learning Graphic Design and Digital Art on my own. I've gotten quite skilled in Canva, Illustrator and Photoshop.

- I had Commercial Art as an optional subject in 12th.

- I'm currently working as a Graphic Design Intern with Aestheticmen Clothing and as a Content Writing Intern with BrainyBones.

- I have worked first as a Sales and Marketing Intern, then as a Point of Contact (POC) between my team leader and the new interns and then as an HR Associate at Homeflic Wegrow for 3 consecutive months.

- I'm skilled in HTML5, CSS3 and polishing my skills in Javascript and ReactJS.

- I achieved 2nd rank in 12th CBSE Board exams (2020 results) in my school with 96.2%. Having always remained on top of my class, my next target is to build my way to the top wherever I work and whatever I do.

## Experience
